## Thailand (Bangkok) Fresh Human Cadaver Dissection Training

In November 2017, we held a specialized dissection study program with fresh human cadavers at the University of Hawaii, School of Medicine. The program went so successfully that we have decided to hold the 2nd session this year.

Trunk area is added to the study this year. The participants will be divided into several groups according to their preferences based on the questionnaire collected preliminarily. We will be taking photos and videos in some parts of the program this year. Even better environment is going to be created this year.

Your participation is highly appreciated!

During the previous session, we conducted a comprehensive and widely range of training from basic dissection to general surgery focusing on the face. The following is some of the comments from the participants.

"The understanding of dissection which is necessary for ptosis operation enabled me to conduct the operations."

- A director of a clinic

"I learned a lot from the dissection of the facial nerve for thread-lift." - A director of a cosmetic dermatology clinic

"I'm glad that I have learnt the method of face-lift." - A cosmetic surgeon

We have received so many happy voices that we cannot introduce all of them here.

This year, we will also introduce the lectures on breast augmentation techniques and surgical demonstrations with the dedication of the trunk.

In addition, we have prepared **a Tour Course** for young doctors who might think "I want to learn a lot of things, including the basic study of operation, however, I am wondering if it's too early for me to have a dissection practice." and for doctors mainly specializing in dermatology and cosmetic dermatology. **(For participation, a recommendation by your guidance physician is required. If you have a permission from your present lecturer, a demonstration like injection is available.)**

The location is Asia this year, so there is **no need to worry about suffering from jet lag**, and **the price is lower** than previous session in Hawaii. It is **very easy to participate**.

Thailand has good climate and many tourist attractions. There will be enough opportunities to communicate with teachers who usually attend academic conferences.

Please join us on this occasion.

**Note: The cadavers used in the practice are donated to the university for medical purposes. We have a consensus with the university regarding this as a major prerequisite for practical training. I would like to ask the attending doctors to fully understand this point and proceed with the practical training. Please think "I would like to thank the bereaved family for agreeing with the will of the person who donated his or her body for medicine, and I would like to study sincerely." Also, please note that you need a permission from the office for taking photos and videos during dissection.**

## Application / Contact Information

Ebisu West Hills Clinic “Thailand (Bangkok) Dissection Practice Office”

TEL: 080-4444-5489 FAX: 03-5489-0334 MAIL: [e\\_support@ebicli.com](mailto:e_support@ebicli.com)

## Thailand (Bangkok) Fresh Cadaver Dissection Summary

**[Date and Time]** Monday 4, November 2019 15: 00 to 17: 00 Lectures  
Tuesday 5, November 2019 09: 00 to 17: 00 Operative demonstration, practice

**[Location]** Thailand (Bangkok) Chulalongkorn University, Anatomy Room  
\*Applicants will be informed of the details on the precise location in a due course.

### [Schedule]

Monday 4, November: Lectures

15: 00 - 17: 00 Ptosis, Nasal Septum Extension, Breast Augmentation, Facelift, etc. (approx. 2 hours.)  
18: 00 - Social Gathering (Networking) event

Tuesday 5, November: Operative demonstration, dissection practice by the participants

09: 00 - 17: 00 Dissection practice (including 1 hour lunch break. At random, during the lab hours, surgery demonstrations by lecturers will be held.)  
17: 00 - 17: 30 Clean-up  
18: 00 - 20: 00 Wrap-up party

\*We will send you a detailed schedule later. Also, if there is a large demands from the participants, we would like to schedule a lecture/surgical demonstration at any time as time permits, so please fill out the questionnaire with your special requests.

### [Travel schedule example]

\*The following is an example of a schedule for entering Thailand (Bangkok) on the day before the training and leaving on the day after the training. Please note that the tuition does not include travel and accommodation expenses. Please make your own traveling schedule.

Sunday 3, November: dep. Japan, arr. Thailand (Bangkok)

Monday 4, November: attending lectures and social gathering (networking) at night

Tuesday 5, November: dissection training, wrap-up party

Wednesday, 6, November: return to home

(There are some red-eye flights to Bangkok but it might be a tough schedule so it is not recommended.

**[Instructors]**      **Dr. Akiyoshi Takada**  
**Visiting Professor, Department of Plastic Surgery, Graduate School of Medicine**  
**OSAKA University, OSAKA**

**Dr. Takeshi Miyawaki**  
**Professor and Chairman, Department of Plastic Surgery**  
**JIKEI University, School of Medicine, TOKYO**

**[Course Description]**

- 1. Facial Training Course (This is a course where you mainly practice facial dissection.)**
- 2. Trunk Training Course (This is a course where you mainly practice trunk part such as breast enlargement.)**

(Regarding above two courses, you can observe and practice another course freely provided that the trainees' consensus. Also, the donated cadavers used by the professor can be practiced freely after the operation demonstration.)

- 3. Tour course (for those who want to see the basic dissection of the face and trunk and those who mainly provide injection services)**

(Participation in the tour course requires the recommendation of a trainee or instructor of (1) or (2). With the permission, you can practice injection, for example.)

**[Tuition Fee]**

(\* Practical training for 2 ~ 3 persons per 1 donated cadaver)

**Dissection Course (Face or Trunk)      250,000 yen**

**Dissection Course (Both Face and Trunk)      400,000 yen**

(The application by the end of May 2019 will receive a discount of 220,000 yen and 370,000 yen respectively.)

**Tour Course      65,000 yen**

\*The above amount includes fees for lectures, facility use, donated cadaver, training participation, lunch (Nov 4) and wrap-up dinner (Nov 5) and shuttle bus.

**It doesn't include airfare, transit from the airport to the hotel or accommodation.**

**[How to apply]**

Please fill out the attached application form and fax it to the office (03-5489-0334).

We will send you an invoice later.

**[Notes]**

\*Taking photos or videos in the autopsy room without permission from the office is strictly prohibited.

\*We have basic simple goods at the university, but we recommend that the doctors will bring their tools for the dissection practice.

**\*We do not have tour companies regarding flight and accommodations. We would appreciate it very much if you could make arrangements for traveling schedule before and after the training days by yourselves.**

## Application for Thailand (Bangkok) Dissection Practice

November 4, 2019 (Mon) and 5 (Tue) 2 day course

Dissection Practice Course (Face or Trunk)	250,000 yen
Dissection Practice Course (Face & Trunk)	400,000 yen
Tour Course	65,000 yen

■ Cancellation fee

Until the end of May: Free / From June 1 to the end of June: 30% of seminar fee / From July to the end of October: 50% of seminar fee  
On and after November 1, or no contact or no participation: 100% of seminar fee

\*The above amounts include fees for lectures, facility use, donated cadaver, practical training, lunch on the day of the seminar, wrap-up dinner, and some bus fares. **It doesn't include the travel fee to the destination, the transportation fee from the airport to the hotel, or the accommodation fees.**

\*We do not have a tour company for travel and accommodations. Sorry to trouble you, but please arrange them by yourselves.

**\*Please note that photography without permission in the autopsy room is strictly prohibited.**

\*We have simple goods at the university, but we don't have anything else. Based on the list of instruments to be used, **each doctor is required to bring his/her instruments for dissection practice to use by himself or herself.**

◇ Please fill in the following.

### Applicant Information

Name of the medical institution:

Name(s) of participating doctor(s):

Facility Address:

Facility TEL / FAX:

Home Address:

Home TEL / FAX:

E-mail:                      @

Name of Recommender (for tour course participant only):

November 4 Lectures: YES / NO

November 4 Social Gathering (Networking) dinner: YES / NO

November 5 Wrap-up dinner: YES / NO

**Please tell us your brief background and the primary training items you desire to participate in.**

### Payment Methods and Invoices

\* Payment in advance is necessary.

Payment can be made only by bank transfer.

We will formally accept your application after confirmation of receipt of remittance.

\* We will send an invoice to each applicant by email or fax. Please transfer the money to the designated payee. Please send your application as soon as practical.

We accept both fax and email applications.
